

## Covid Policy

In the best interest of Cake Angels committee, volunteers, the children, their families, and our referral agencies the Cake Angels have established a COVID-19 policy, which sets out the rules and procedures our not-for-profit will implement for the duration of the COVID-19 crisis.

If you have been assigned to make a cake for a child and the State in which you live in goes into a lockdown - the cake cannot be made under the Cake Angels banner. We will postpone all cakes till such a time when the lockdown in a state has either eased restrictions or completely lifted.

We understand this is a difficult time for these families and that they may still opt to receive their cake, in this case if you do choose to make the cake for the child it will be at an agreement between both you and the family. The Cake Angels will not take responsibility for any adverse outcomes in this situation. We will not be able to share pictures of your cake on our social media in this circumstance.

If you are delivering a cake to a child during restrictions, you must follow the statewide health advice. If a mask is required to be worn you must wear a mask and adhere to distance restrictions. We do not want volunteers having to travel outside their restricted radius to deliver a cake. Non-contact deliveries are best during these uncertain times.

As the lockdowns and restrictions may come in to place without a lot of notice we understand it might inconvenience our volunteers as the cake may already be made. We understand that this is a difficult time for everyone and if you are in this position and unable to deliver, please reach out to us so we can share the cake on our social media.

This policy is in place to protect not only our volunteers but also the child receiving the cake and their family.
